

*What marvels
there are in so
small a creature.*

— Antonie van Leeuwenhoek, 1675

**WEBER STATE
UNIVERSITY**

College of Science

— DEPARTMENT OF —
MICROBIOLOGY

Why study microbiology at Weber State University?

- 1 Prepare for success in medical, dental or graduate schools.

- 2 Gain skills employers seek in pharmaceutical, agricultural, medical and environmental fields.

- 3 Conduct scientific and laboratory research with your professors.

- 4 Present your research at local and national conferences.

- 5 Participate in the microbiology club for fun, field trips, service and career advice.

- 6 Study the most diverse and most abundant organisms on earth.
