

My goal is simple. It is a complete understanding of the universe, why it is as it is and why it exists at all.

– Stephen Hawking

WEBER STATE
UNIVERSITY

College of Science

— DEPARTMENT OF —
PHYSICS

Top **5** Reasons to Study Physics at WSU

1 You'll learn about your world, from the smallest particles to the immense universe.

2 You can conduct research in physics, working closely with our award-winning faculty.

3 You'll enjoy studying and applying the fundamental laws of nature in small classes.

4 Developing the collaborative and problem-solving skills employers seek is part of the curriculum.

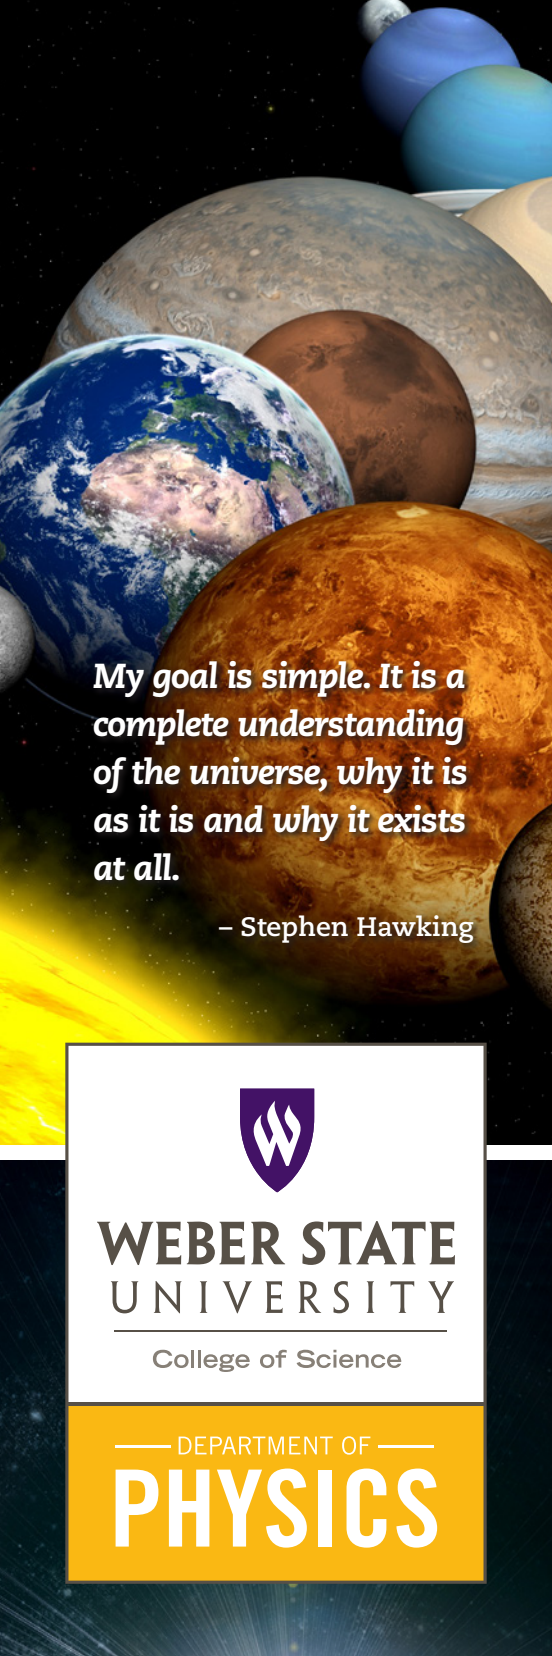

5 You'll help others through outreach and service projects.
